

## Certificate

Phison Electronics Corporation (“**Phison**”) was established in November 2000 in Taiwan. Starting with the world's first single-chip USB flash drive IC, Phison is now a market leader in NAND Flash controllers and solutions such as USB, SD, eMMC, UFS and SSD.

As a NAND flash total solution provider focusing on consumer, embedded and enterprise market, Phison also offers system integration, OEM/ODM services, IP licensing, and ASIC design services.

It is hereby stated that SuperWave Group LLC (“**SuperWave**”) is Phison’s authorized partner to promote and sell Phison’s NAND storage solutions in authorized region.
